## Questions

### What happens next?

We'll send you an order confirmation email after you place your order. It includes order information and a link to view your order status. We'll also send you notification emails whenever an item ships or is ready to pick up.

### When can I pick up my order?

We'll email you when your items can be picked up. In-stock items are typically ready within an hour. In some instances, you may be required to select a time window to pick up your order. This will ensure your order is ready shortly after you arrive. Simply check in with a specialist. If you're unable to come in during this time window, you can still pick up your order, but wait times may vary. [Learn more about Pickup.](#)

### When will I get my items?

We grouped your items into shipments above, and your delivery date appears next to each shipment. You'll receive notification emails as your items leave our warehouse or become available for pickup at an Apple Store. [Learn more about Delivery & Pickup.](#)

Can I make changes to my order?

What if I will not be available to receive my shipment?

How do I track my shipment?

Visit online [Order Status](#) to view or change your order. You can also reach Apple Store Customer Service at 1-800-MY-APPLE. We're happy to help.

Apple offers several easy options for you to receive your shipment, including pre-signing for the package; signing with the carrier to release your shipment to your address, your neighbor, or your building manager; or picking up the package at the carrier's local office. Learn more about [Delivery Options](#).

Once your item ships from our warehouse, we'll send you a Shipment Notification email that includes the carrier name and tracking number. Click the link to view the status of your package on the carrier's website.

If you ordered multiple items, you may receive separate shipments with no additional shipping charges.

Thank You
